WHY

Designed by Roger and Webb Associates in Europe, Why is an ergonomically designed task chair with distinctive, contemporary style. Why's back is formed from high performance polymer that adjusts to the movement of the body. The unique contoured height adj back ensures pelvic and lumbar support, perforations aid in ventilation. Why has been designed to minimise the number of materials and components used in construction and is 98% recyclable. Why ensures a long lifespan and has been designed for easy disassembly and material separation for recycling. Standard with Italian Donati mech and integrated seat slide.
